When General Graham returns from Washington, where he finished his testimony to-day before the War Investigation Board, he will bring with him the official orders about the representation at Philadelphia at the Peace Jubilee. If permission is granted by the War Department, who are residents of the State have made affidavits in order to secure the State allowance, which averages \$150 a month to each enlisted man.

General Graham will confer with his staff upon his return regarding the plans for moving the troops. As the other army corps are to move at the same time it is thought that one regiment at least will be sent to Camp Meade, as that only one regiment shall reach the new camp each day.

There is no longer any doubt regarding the movement of the Second Corps, beginning October 27. Today orders were received from the War Department which include the reorganization of the army and the assignment of the various corps to the new camps.
